# BETA CLARINETS

Ethically and sustainably harvested Grenadilla wood, carefully procured and aged, provides diverse sound characteristics.

Designed for aspiring professional artists, the keywork and mechanism are similar to the Protégé Clarinet, allowing players to advance through the Backun line of clarinets with ease.

Taking into account the needs of players with different skill levels, the bore and tone holes are precisely machined to create the perfect amount of response for developing artists.

Beta Clarinets come with one Beta Barrel and one Backun Bell from our line of world-renowned accessories.

## KEYS

---

Nickel

Silver

## WOODS

---

Grenadilla

## CONFIGURATIONS

---

Bb	Grenadilla	Silver
